SUSTAINABLE BUILDING SOLUTIONS

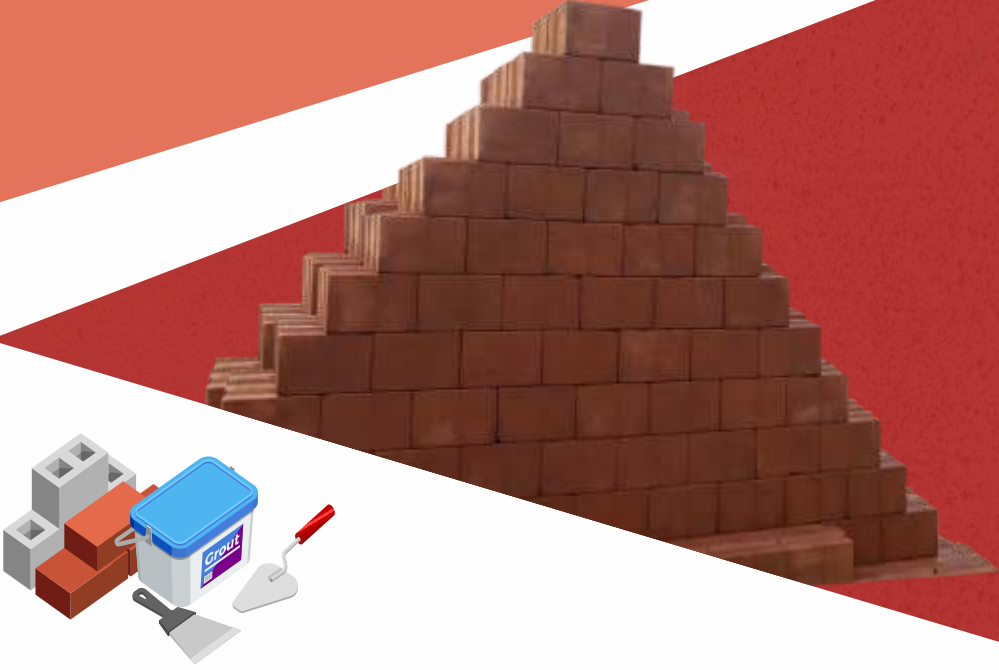

SUBAM
INNOVATIONS INDIA PVT. LTD.

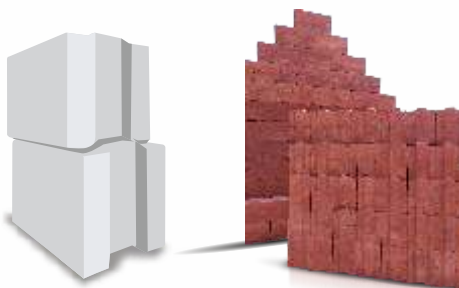

SUBAM INNOVATIONS INDIA PVT LTD

SUBAM is Sustainable Building Allied Materials. The company is mainly into making light weight interlocking concrete blocks.

LIGHT WEIGHT CONCRETE IS A SERIOUS GAME CHANGER TO THE MARKET. HOW? AS THE PRODUCT IS LIGHT IN WEIGHT, SO:

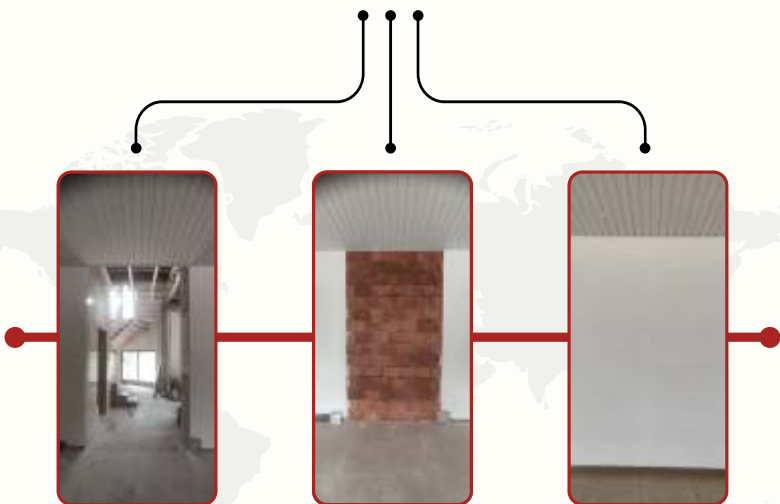

- ❏ Construction will be light and easy, hence less efforts required & faster construction achieved without any compromise on the quality or strength of the product/result.
- ❏ Constructing buildings above level 2 will be lighter now. As you go higher, the burden on the foundation increases, but by using ours you can go higher with lighter load.
- ❏ A key ingredient in our light weight concrete is Pond ash, a waste generated by thermal power plants. Each day, tons of it is generated and disposed of in lakes. As the construction industry is a major contributor to carbon emissions, utilizing this waste material not only reduces the burden on the environment but also results in a eco-friendly construction.

SUBAM is driven by Innovation, sustainability and making construction faster, easier and most economical than ever. The company is established with a sheer experience of **10+ years** in the concrete industry. The company also holds a patent for the manufacturing process of the Light weight concrete.

WORK DONE IN A DAY

PRODUCT FEATURES

Interlocking / Stackable

Reusable Blocks

Light Weight (60% less)

Termite Resistant

No Mortar Required

Design Flexibility

No Plaster Required

Crack Free Walls

No Curing Required

Economical (30% less)

Earthquake Resistant

Minimum Handling

Fastest Construction

Low Water Absorption

Sound Insulation

Excellent Workability

Fire Resistant

Eco-friendly Product

Weather Resistant

Thermal Insulation

Debris Free Construction

Faster & Eezy Conduiting

Save 30% Construction Cost

Crack Free Walls

No Plaster Required

PRODUCT SPECIFICATIONS

Density	EEZY 500	EEZY 900	EEZY 1200
Compressive Strength	1.5N/mm ²	3.5N/mm ²	6N/mm ²
Water Absorption	12%	12%	12%
Thermal Insulation	0.12	0.28	0.38
Sound Insulation	45db	45db	45db

PRODUCT DIMENSIONS

Sizes (LxHxB):

4 inch

400x200x100 mm

6 inch

400x200x150 mm

8 inch

300x200x200 mm
